

Sorry we missed you.

Representatives from the United States Environmental Protection Agency are in the Dimock area this week to gather additional information about the status of your drinking water and details about your well. The USEPA is seeking data you may have from previous water sampling, information about your well construction and the current source of you drinking water. If you are interesting in meeting with us, please call:

Trish Taylor – 215-514-2732

David Polish – 215-514-7068
